

To those considering participation in Canale Travel UK Football Tours

Dear Parents

On behalf of Football Queensland I am writing to advise you of our support of the Canale Travel UK Football Tours.

Canale Travel Service has been conducting tours to the UK for many years and we have always been delighted with the meticulous planning of the tour and the outstanding feedback from tour participants. This feedback from players most often describes the tour as one they will never forget. From a Football Queensland point of view, the Canale tours offer outstanding care to those who participate with experienced and committed support personnel.

Canale tours are focussed around football but offer much more than this. They are a time to develop friendships and for personal growth in a friendly and supportive environment. Football Queensland is delighted to acknowledge the quality of the Canale Tours again in 2010.

Finally, we understand the contribution that parents and friends make to the sporting life of young Queenslanders and I want to thank you for that. Our feedback from previous tours is that parents have felt that the tours have justified the significant commitment they have made.

Yours in Football

Dennis O'Brien
President
